Stafford Park

Expansion for printing firm

PRESTIGE Print of Telford has expanded their production area by taking on additional 5000 sq ft of space on Stafford Park 4.

Exactly a year ago the company's directors Dhiren, Hitesh & Jayant Dhulashia decided to add the printing of technical handbooks to its cur-

rent production facilities and within weeks of going into production the demand outstripped the capacity and the company had to very quickly find the space and buy three additional printing presses together with finishing equipment worth around £175,000.

In July this year the company also bought out Border Press, another local printing company.

This has also resulted in additional work and all members of staff from Border Press have also been taken on at the company's main printing works at Stafford Park 12.
